R E Cooke Ltd

R E Cooke was founded in 1934 by Robert Cooke and since that time we have held a reputation for **quality** and **reliability** in everything we do.

At **R E Cooke** we are committed to the **ongoing development** of our people as well as investing in the latest technology. Our facilities are very well suited to small and medium volume production as well as prototypes and one-offs.

We value the **highest standards** of quality, courtesy and reliability as a minimum requirement, whilst always striving to exceed our customers' needs and deadlines.

We operate from a modern factory in Burton Upon Trent, Staffordshire, servicing clients in the military, automotive, rail and electronics industries.

Our specialist **services** include design, laser cutting, punching, robot-welding, bending and machining and we can work with almost any metal. We also offer a wide range of finishing services and products can be delivered as manufactured, powder coated, silk-screen printed, electro plated or engraved.

At **R E Cooke** we constantly review our quality systems to maintain the high standard and reputation we have earned within our market place.

- High Quality
- Rapid Quotation Service
- Quick Turnaround at Competitive Prices

Powder Coating

R E Cooke have 'in house', multi stage, pre-treatment processes to ensure a high quality standard of coat adherence. Our purpose built **powder coating** plant allows us to offer guaranteed high standards, totally within our control.

We can offer epoxy or polyester depending on the end user of the component . We also offer specialised low emission paints for safety critical environments. In addition we can provide high quality zinc, nickel and chrome plating through our approved subcontractors.

Continuous Improvement

The **continuous improvement** of our processes and techniques are driven by our commitment to the lean manufacturing philosophy. The adaption of lean principles helps us to reduce waste, whilst increasing productivity, throughput, reducing costs, improving quality and increasing customer satisfaction.

Kanban systems, 5-s cellular manufacture and kaizen activities all combine with our modern manufacturing equipment to help establish **R E Cooke** as a world class supplier.
